

Bylaws of the Board

Public Statements

The East Granby Board of Education recognizes that communication is a continuous two-way process. The Board believes that it is important to keep the public informed about educational programs, and, in turn, that the community should have the opportunity to provide input.

Communication will be a concurrent responsibility of the Board of Education and the Superintendent of Schools. The Superintendent of Schools will work with the members of the Board of Education to conduct an active and comprehensive program throughout the school district and community for the prompt dissemination of information about decisions made at all Board meetings. Releases to the press and brief summaries of Board meeting actions prepared for distribution to staff members and parent/guardians are regarded as appropriate media of information for meeting the requirements of this bylaw. Press releases relative to Board of Education action shall be released only by the Board Chairperson or the delegated agent of the Board.

Advocacy

The Board of Education believes that advocacy is a critical part of its activity and an important responsibility of school Board members. Advocacy is engagement in the political process at local, state and national levels to influence the public policies that affect Boards of Education and school children.

Education advocacy requires the Board of Education to publicly state what is needed to achieve effective public education. It is a recognition that the Board of Education has an important message to deliver to all governmental levels, the media and community, that affect educational policy and power to influence outcomes.

Education must be a priority in local, state and national policy and actions. Advocacy is necessitated by the many laws mandated on the school district by the state and federal government as well as regulations promulgated by State and Federal Departments of Education.

School Board members, respected by legislators are powerful advocates, with the responsibility to explain to legislators, the local impact of state and federal policy decisions.

In fulfilling its advocacy responsibilities, the Board of Education will cooperate in appropriate initiatives with others to achieve favorable legislation on education issues. Coalition building is critical to effective advocacy.
